DETAILED ACTION

The finality of the last Office action is withdrawn.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 19 and 20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Applicant recites the limitation " wherein the transmit (receive) arm outwardly facing surface has a metallization pattern as shown in FIG. 2 (3)". This limitation makes the claim indefinite. The MPEP state in 2173.05 (s) "Where possible, claims are to be complete in themselves. Incorporation by reference to a specific figure or table "is permitted only in exceptional circumstances" where there is no practical way to define the invention in words and where it is more concise to incorporate by reference than duplicating a drawing or table into the claim. Incorporation by reference is a necessity doctrine, not for applicant's convenience." Ex parte Fressola, 27USPQ2d 1608, 1609 (Bd. Pat. App. & Inter. 1993)

Allowable Subject Matter

Claims 1, 5, 6, 8-18 and 21 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: The prior art of record does not disclose a bridge through hole extending between the transmit arm outwardly facing surface and the receive arm outwardly facing

surface, the bridge through hole having side walls and the bridge metallized area being present on the side walls of the bridge through hole.
